## Education

College: Galgotias College of Engineering and Technology(GCET), Greater Noida, UP, India

University: Uttar Pradesh Technical University

Batch: 2013-2017

Course: B. Tech - IT

Score: 73.38

Senior Secondary

RAMPUS, CBSE | 2012 | 68.4 %

High School

RAMPUS, CBSE | 2010 | 83.38 %

## Skills

> Java, NodeJS, Python, Springboot  
> Git, GraphQL, Javascript, Django  
> C++, HTML/CSS, JQuery, Postman  
> ChartJS, Highcharts, Materialize, Bootstrap, JIRA

## Achievements

> 94 percentile in NPAT by NPTEL.  
> 100% in Computer Programming in AMCAT.  
> Venturesity Code-Golf Week 1 Winner.  
> GeeksforGeeks Geekathon Rank 98.  
> Qualified for Round 1 - Facebook HackerCup, Google CodeJam in 2016.

> Certifications: National Programmer Aptitude Test(NPTEL), TCS CodeVita Season 5(TCS), GeeksforGeeks, Codecademy

## Interests

> Data Structures and Algorithms  
> Problem Solving  
> Back-end Engineering  
> NodeJS  
> Competitive Coding  
> Chrome Extensions

## Work Experience and Internships

SOFTWARE ENGINEER - III | WALMART, BANGALORE

Aug 2021 - Current

Search Engine Optimization:

- Led the enhancement of server-side rendering by 30% for multiple Walmart eCommerce sites within Mexico region, spanning various banners.
- Enhanced dynamic rendering for improved indexing and ranking of pages by crawlers and bot agents.
- Contributed to the seamless migration of legacy data across various services of diverse types using Java.
- Collaborated on crafting GraphQL queries to facilitate page interlinking data, enhancing the presentation of related content to end-users.

Technologies:

- NodeJS, Java, Springboot, GraphQL, Git, OneOps, Splunk, ServiceNow

SOFTWARE ENGINEER - II | RELIANCE RETAIL(AJIO), BANGALORE

Nov 2019 - Aug 2021

Vendor Management System.

- Innovatively integrated product creation and listing backends across multiple systems, enabling seamless coordination and improved efficiency.
- Played a pivotal role in the robust implementation of B2B, B2C, and COMMON Business Model Seller Onboarding for ajio.com.
- Proactively developed an automated daily reporting script, optimizing issue tracking by 50% and escalating mechanisms across diverse organizational levels.

Technologies:

- Spring Boot, Java, Python, MongoDB, Git, Swagger, Apache Kafka

SOFTWARE DEVELOPER - DECISION POINT ANALYTICS, Gurgaon

Feb 2018 - Oct 2019

Sales Reporter Chatbot:

- Orchestrated the creation and deployment of a Sales Analysis Chatbot using Google Dialogflow, effectively enhancing data-driven decision-making processes and saving 15 hours weekly for the users.
- Expertly managed the migration of Google Dialogflow code from v1 to v2 on the Node server, ensuring seamless functionality and improved performance.
- Innovatively localized chatbots for country-specific languages, broadening market reach by 60% and catering to diverse user bases.
- Utilized NodeJS to facilitate efficient communication between Dialogflow and Workplace platforms, optimizing user interactions and data exchange.
- Leveraged REST services on Django to establish robust backend API services, employing MySQL and BigQuery for efficient data handling.
- Engineered a modular ReactJS dashboard for chatbot user management, permissions adjustments, and insightful report tracking.

Miscellaneous:

- Demonstrated strong collaboration by creating 15 data visualization charts within a two-week timeframe, significantly enhancing data interpretation capabilities.

Technologies:

- Node.js, React.js, Angular7, Python(Django), Javascript, Dialogflow, BigQuery, MySQL, Angular Material, MaterializeCSS, Bootstrap, HTML/CSS.

SOFTWARE ENGINEERING INTERN - NAVYUG INFOSOLUTIONS, Noida

Jul 2017-Jan 2018

Internal ERP System:

- Contributed to the development of ERP applications using Odoo 9 and 10 frameworks, enhancing internal operational efficiency.
- Designed and implemented the Work from Home module, allowing employees to submit and manage remote work requests based on their roles.

Technologies:

- Odoo 9/10, XML, Python, JavaScript, PostgreSQL, HTML5, Jinja 2, Bootstrap, Git.

PROGRAMMING INTERN - GEEKSFORGEEKS, Noida

June-July 2016

ARTICLES:

- Authored and published 8 original technical articles focused on Data Structures, Algorithms and Programming languages on the official GeeksforGeeks website.
